Dear Mr. Trautfield:

We have completed our computer search. By attachment, I am providing an excel spreadsheet with court docket numbers, sentence, date of sentence, and defendant xref. An xref is a local identifying number for each person. This list includes all defendants sentenced to either life without parole or death between 1991 and September 21, 2020.

I am also providing the attached .zip file which contains electronic copies of the charging documents associated for most of the cases between 1999 and 2000. Those charging documents should identify any special circumstance alleged. Prior to 1999, the charging documents were not all electronically stored but we have provided what we were able find during the computer search. Any additional documents that we may have would require a lengthy search of physical files stored off-site, and such a search may or may not result in further responsive documents. However, any of the court docket numbers can utilized for any further research you may wish to pursue.

Pursuant to our phone conversation this afternoon, I believe the attached files satisfy your request. The search took one hour of programming time, for which you have already submitted a check in the amount of \$87.20. If you have any questions, or if after a review of the attachments you wish to explore further information on the pre-2000 cases please contact me.

Sincerely,

ANNE MARIE SCHUBERT  
DISTRICT ATTORNEY

Richard Miller  
Assistant Chief Deputy District Attorney
