Mr. Trautfield:

Pursuant to my email dated October 23, 2020, the County exercised its right under Government Code section 6253(c) to a fourteen (14) day extension to respond to your Requests because the County may possess records responsive to the Requests. We are responding within that 14-day deadline.

The County has determined that it has some non-exempt records which appear to respond to your Requests. Our existing system is only able to retrieve data records back to 2003. You may also wish to refer to the records of the Superior Court of California-Santa Cruz at: <https://www.santacruzcourt.org/> should you need any additional information beyond the records we have available.
